

Congratulations

As part of our school assessment program and to ensure that school standards remain at a high level, pupils from Year 2 upwards took the IOWA tests of basic skills earlier this year. Below are the class results which I think you will agree are quite amazing considering our pupils are not used to completing multiple choice questions and that there were no practice papers completed before they tackled the real thing! More detail of these results can be discussed with your child's class teacher at your parent consultation. In the next few weeks we will be supplying you with similar information on the British National Curriculum age groups.

Well done to all pupils!

Michael Horton
Headmaster

YEAR 2 IOWA TEST RESULTS 2006

Reading:

1. **97% are at their appropriate grade or higher.**
2. **89% are working at least 1 grade above their age.**
